- Suitable for oven, grill and fryer cleaning.
- Penetrates and dissolves carbonized grease.
- Ideal for use on grills, hoods, stove tops, etc.

TM#
20995 4/1 Gallon

Usage Areas: **2** **9** **10** **11**

1. INSTALL RACK

Find a proper open space in close proximity and below the dispensing control unit.

Install the rack securely to wall. If able, it should be attached at a strong point on the wall, preferably to a stud. If this is not available, then a suitable wall anchor must be used (not included).

2. Place your product on the rack in the order you need. Using the enclosed rack stickers, apply the corresponding sticker under each product slot.

3. Attach the cap adapter to the dispensing tube and screw securely onto the bottle. Cap is designed to screw on without twisting the tube.

4. When you are ready to change out the product bottle, unscrew the cap adapter from the empty bottle and replace with a full bottle. Screw the cap adapter onto the full bottle. Dispose of empty product containers according to your local and state regulations.

1 Glass & Window Cleaner

- Quickly cuts dirt and dust. Use on glass, windows, stainless, plexiglass and all other water safe surfaces.
- Closed loop connection is safer and cleaner for facility personnel.
- Each case includes 4 secondary labels.

Usage Areas: **4**
